7. **NON-PERSONAL DATA**

a. **Non-Personal Data.** Non-Personal Data means data that is not associated with or linked to your Personal Data; Non-Personal Data does not, by itself, permit the identification of individual persons.

b. **Analytics.** You can learn more about Google’s practices and your options regarding the same at http://www.google.com/policies/privacy/partners and https://tools.google.com/dlpage/gaoptout.

c. **Google AdWords.** Google AdWords marketing service is provided by Google Inc. d. **Cookies.** Cookies are text-only pieces of information that a website transfers to an individual’s hard drive or other website-browsing equipment for record-keeping purposes. Cookies allow the Mira Solution to remember important information that will make your use of the Service more convenient. Cookies will typically contain the name of the domain from which the Cookie has come, the “lifetime” of the Cookie, and a randomly generated unique number or other value. We use Cookies in several ways, including:

   ii. **User Preferences.** We use Cookies to store certain preferences regarding your use of the Mira Solution.

We use this information to analyze trends, administer the Mira Solution, track users’ movements around the same, gather demographic information about our user base as a whole, and better tailor the Mira Solution to our users’ needs. Except as noted in this Privacy Policy, we do not link this automatically-collected data to Personal Data.
g. **Pixel Tags.** We use “Pixel Tags” (also referred to as clear Gifs, Web beacons, or Web bugs). Pixel Tags are tiny graphic images with a unique identifier, similar in function to cookies, that are used to track online movements of users. In contrast to Cookies, which are stored on a user’s computer hard drive, Pixel Tags are embedded invisibly in Web pages. Pixel Tags also allow us to send e-mail messages in a readable format, and they tell us whether e-mails have been opened to ensure that we are sending only messages that are of interest to our users.
